

Lazli Abdelmalek

.NET Full Stack Developer

abdelmalek.lazli@gmail.com | +213 540 977 919 | Algiers, Algeria | [linkedin.com/in/abdelmalek-lazli-18b5321b0](https://www.linkedin.com/in/abdelmalek-lazli-18b5321b0)

PROFESSIONAL SUMMARY

.NET Full Stack Developer with proven experience designing, building, and maintaining business-critical applications in enterprise environments, with a focus on the Oil and Gas sector. Delivered measurable results using C#, ASP.NET MVC, ASP.NET WebForms, and SQL Server, including a 50% increase in operational efficiency and a 70% reduction in system downtime. Skilled in UI development, legacy system modernization, requirements analysis, and aligning software solutions with real business needs. Holds SAP S/4HANA certifications with hands-on experience in the PS module and cross-module integration.

PROFESSIONAL EXPERIENCE

.NET / ASP.NET Software Developer

ENAC - Sonatrach Subsidiary (Oil and Gas), Algiers, Algeria | Sep 2025 – Present

- Improved administrative efficiency by 30% by developing internal web applications using ASP.NET MVC and WebForms.
- Reduced system downtime by up to 70% through maintenance and refactoring of legacy applications.
- Improved data accuracy and response time by implementing business logic in C# and optimizing SQL Server stored procedures.
- Enhanced user experience and reduced onboarding time by building interactive interfaces with HTML5, CSS3, and JavaScript.
- Supported executive decision-making by developing operational dashboards and reports using Power BI and SQL Server.
- Aligned technical solutions with business needs through close coordination with finance, operations, and project teams.

Junior SAP PS Consultant

CNPC Beijing Richfit - Sonatrach Project, Algiers, Algeria | Jul 2025 – Sep 2025

- Improved system accuracy and reduced configuration errors by 40% through SAP PS setup, testing, and validation.
- Strengthened cross-module data flow by supporting integration between SAP PS, MM, PM, and FI/CO modules.
- Improved project cost control and financial planning through structured tracking and reporting workflows.
- Produced technical documentation and bridged communication between technical teams and end users.
- Accelerated team operational readiness through SAP S/4HANA training across complex process scenarios.

SAP Young Professional Program - Certified Consultant

SAP, Setif, Algeria | Mar 2025 – May 2025

- Completed intensive SAP S/4HANA training covering MM, SD, FI/CO, PS, EPM, PP, and EWM modules.
- Earned SAP Certified Associate - Business Process Integration with SAP S/4HANA.
- Earned SAP Certified Specialist - SAP S/4HANA Cloud Private Edition.

Operations Research Intern

Sonatrach, Algiers, Algeria | Jan 2024 – Jun 2024

- Built a multi-criteria optimization model for the Exploration and Production project portfolio using Python and IBM CPLEX.
- Delivered scenario analysis and predictive modeling reports to support budget prioritization and strategic planning.
- Improved resource allocation and risk assessment through structured portfolio optimization frameworks.

PROJECTS

Full Stack Web Application - Leave Request System

Oct 2025 – Apr 2026

- Reduced manual processing time by building a full-stack ASP.NET MVC application with automated workflow routing.
- Improved access control and audit compliance by implementing multi-level approval with role-based access control (RBAC).
- Enhanced application security by connecting a dynamic Bootstrap 5 interface to SQL Server via C#.

Electronic Document Management System (EDMS)

Nov 2025 – Feb 2026

- Improved document retrieval speed by centralizing company archives in a secure, structured digital system.
- Reduced data loss risk and improved compliance by designing and implementing a scalable document management platform.

Executive Dashboard - CEO Procurement Dashboard

Jan 2026 – Mar 2026

- Supported strategic decision-making with real-time visibility into project status, KPIs, and critical deadlines.
- Simplified operational analysis through a visual reporting system integrating data from multiple business units.

Desktop Application - Purchase Order Management

Dec 2025 – Jan 2026

- Improved purchase order tracking and reduced processing errors by building a procurement management desktop application.
- Accelerated order processing by linking purchase orders to supplier contracts with workflow automation.

UI Redesign - Contracts Management Desktop Application

Feb 2026

- Enhanced user experience by redesigning the supplier contracts management application interface.
- Reduced task completion time and minimized user errors by simplifying workflows and improving UI/UX components.

TECHNICAL SKILLS

Languages & Frameworks: C#, ASP.NET MVC, ASP.NET WebForms, .NET Framework, .NET, HTML5, CSS3, JavaScript

Version Control: Git, GitLab (push, pull, merge, branching, collaboration workflows)

Databases: SQL Server, SQL queries, stored procedures, application data integration
